WIC “Formulas For Medical Conditions”

(While WIC does not require grocers to stock the following formulas, a small number of food instruments are issued to participants for the following formulas.)

Similac Alimentum	Powder only	16 oz.	
Similac NeoSure Advance	Powder only	12.9 oz. or 12.8 oz.	May buy either can size.
Enfamil A. R. or Enfamil A. R. LIPIIL	Ready-To-Use only	32 oz.	May buy either product name.
Enfamil EnfaCare LIPIIL	Powder only	12.9 oz. or 12.8 oz.	May buy either can size.
Enfamil Nutramigen or Enfamil Nutramigen LIPIIL	Powder only	16 oz.	May buy either product name.
Carnation Good Start or Nestle Good Start Supreme (without DHA/ARA)	Powder only	12oz.	May buy either product name.
Carnation Good Start or Nestle Good Start Supreme (without DHA/ARA)	Concentrate only	13 oz.	May buy either product name.
PediaSure-vanilla only (Ross)	Ready-To-Use only	8 oz.	6 packs only

Please note:

Powdered Formula: Powdered formula is the most widely used form of formula in CA. All contract formulas are offered in a powdered form but vary in can size (see above). No large can sizes of powdered formula are allowed.

Concentrated Formula: All contract formulas are offered in a concentrated form. Concentrated formula is provided in a 13 oz. can size and is a uniform size for all formulas.

Ready-To-Use Formula: The only authorized ready-to-use formulas are Enfamil A. R. or Enfamil A. R. LIPIIL and PediaSure formulas.
